PROFESSIONAL SUMMARY

AI strategist and data scientist with 7+ years of industry experience translating machine learning, geospatial analytics, and large-scale data products into measurable business and policy outcomes. Currently pursuing an MS in Public Policy and Management (Data Analytics) with a concentration in AI Management at Carnegie Mellon University. Track record of building data teams, shipping AI-powered products, and driving revenue at Southeast Asia's largest telco.

EDUCATION

Carnegie Mellon University, Heinz College

Master of Science in Public Policy and Management - Data Analytics, Concentration in Artificial Intelligence Management. GPA: 3.94.

Relevant Coursework: Generative AI Lab, Machine Learning for Public Policy, Responsible AI

Pittsburgh, PA, USA

Expected May 2027

Institut Teknologi Bandung (ITB)

Bachelor of Science in Information Systems and Technology. GPA: 3.55.

Relevant Coursework: Probability and Statistics, Enterprise Architecture, Database Modelling

Bandung, Indonesia

July 2018

EXPERIENCE

Graduate Teaching Assistant

Carnegie Mellon University

- Teaching assistant for 90-710: Applied Economic Analysis and 94-844: Generative AI Lab

Aug 2026 – Present

Pittsburgh, PA, USA

Geospatial Intelligence Intern

Urban Redevelopment Authority

- Engineered an in-house geospatial monitoring platform to replace a paid third-party survey subscription, cutting \$15,000 in annual licensing and bringing contractor field reporting under URA control
- Shipped an executive KPI dashboard, map, and contractor portal on ArcGIS
- Pioneered agentic development end to end and handed over an agent-ready repository so the GIS team can continue shipping without a dedicated engineer

Jun 2026 – Aug 2026

Pittsburgh, PA, USA

AI Fellow (GIS Platform)

Handshake AI

- Partner with a leading AI frontier lab to enhance long-context computer use on specialized GIS workflows, improving model performance on geospatial reasoning and spatial tool use

May 2026 – Aug 2026

Remote

Data Scientist II

Telkomsel (Southeast Asia's Largest Telco, 170M Users)

- Deployed econometric models for the Telco Service Loan product (Telkomsel Emergency Package), achieving a 6% revenue increase and contributing to an all-time high revenue milestone
- Developed an e-commerce install predictor using telco features with CatBoost, yielding 2.5x lift over random baseline
- Led data engineers to transform the Mobility Data Pipeline from a yearly to a monthly cadence, reducing delivery time from 4 days to 16 hours
- Led a multinational Singtel Group team to win Action for Change 2024 by building EcoFlow, a geospatial-data venture

March 2020 – July 2025

Jakarta, Indonesia

Associate Data Strategist (Management Trainee)

Telkomsel

- Built the data team for a new business line, Consultative Insight, focused on aggregated data monetization for ride-hailing clients, generating USD 11M in annual revenue
- Transformed programmatic advertising with advanced telco customer segmentation using browsing interest data, developing data features aligned with international standards across 51 interest segments

August 2018 – February 2020

Jakarta, Indonesia

Market Intelligence Analyst

Lazada Indonesia

- Executed a data-driven campaign targeting a younger audience for e-commerce promo activation, lifting CTR from 0.5% to 4%
- Implemented SQL within Google Sheets to replace traditional formula-based lookup, enabling faster SKU search and improved data inventory management

May 2017 – Aug 2017

Jakarta, Indonesia

PROJECTS

BukuGambar.AI <https://colorize.allrize.tech/>

Personal Project

- Built a web app that transforms text or photos into coloring-page outlines using the OpenAI API

April 2025 – Present

EcoFlow

Founder and Team Lead

August 2024 – July 2025

- Founded an AI-powered sustainable tourism venture using telco data to design crowd-aware itineraries, incubated by Telkomsel's innovation unit; now live as Telkomsel Travel Assistant

tSurvey <https://tsurvey.id>

March 2022 – December 2023

Research and Insight

- Established an audience-sizing engine and stratified sampling framework for survey data from 158M respondents using advanced statistical modeling
- Engineered a data pipeline converting offline, image-based surveys into structured data via an AWS OCR pipeline

CERTIFICATIONS

- Generative AI - Google Cloud (2024)
- Amazon Web Services Technical Essentials (2018)

AWARDS & HONORS

- Global Participant, Build with Opus 4.7 Hackathon, 1-week invited-only virtual hackathon (Anthropic) - 2026
- 2nd Place, Pittsburgh AI Safety Hackathon, AI-use mass surveillance policy analysis (Carnegie Mellon) - 2026
- 1st Place, Prompt-a-Thon, agentic AI ideation for corporate (Microsoft Indonesia) - 2025
- LPDP Scholarship Awardee, full-ride scholarship to pursue master's degree (Indonesian Endowment Fund) - 2024
- 1st Place, AWS PRFAQ Challenge, company-wide innovation workshop (Amazon and Telkomsel) - 2023
- Ganesha Karsa, highest university distinction for multiple competition wins (Institut Teknologi Bandung) - 2018

SKILLS

Programming: Python, SQL, PySpark, HTML, JavaScript

Agentic Development: Harness, MCP, Claude Code, Codex, CI/CD, RAG, Model Fine-tuning

GIS: ArcGIS Pro, QGIS

Data Visualization: Tableau, PowerBI, Looker, Streamlit, Plotly, Seaborn, Matplotlib

Databases: PostgreSQL, MySQL, Hadoop (Cloudera Data Platform), MongoDB
